Re: Demand Products Fasteners

Please be advised that the proper use of Demand Products, Inc. washers to attach insulation board will not affect the issuance of a warranty from the Wall Systems business of BASF Corporation. The washers for use with the corresponding EIF systems currently marketed by BASF Corporation are as follows:

Demand Washer	Senergy	Finestone	Acrocrete	SonoWall
PB & PBH	Senturion I, II, III	Pebbletex-D, D7, D10M	Acrowall-ESV 1,2,3	FlexWall-WMR1, R2, R3
DP300	Senerthik	Impact-R	Acrowall-PM	PM Wall
DP300 & 400	Senerflex and Senturion systems with polyisocyanurate insulation board	Quik Clad and Quik Clad-D systems	Acrowall-ES and Acrowall-ESV systems with polyisocyanurate insulation board	FlexWall and FlexWall-WMR systems with polyisocyanurate insulation board

Ensure insulation board is attached according to our published fastener pattern recommendations.

Please feel free to contact me if you have any questions or comments.

RE: Fastener Evaluation

We have reviewed the testing and descriptive literature you sent and hereby approve the use of the Demand PB, PBH, DP300 and DP400 washers for use in conjunction with the corresponding Dryvit EIF systems currently marketed as follows.

Dryvit PB systems including: Outsulation[®], Residential MD System[®], Light Commercial MD Systems[®] 1 – 3: PB and PBH washers.

Dryvit Ultralation[®] System and Sprint[®] MD System[®]: DP 300 and DP 400 washers.

Use of these Demand washers to attach the insulation board to the substrate will not affect the issuance of a warranty for the corresponding Dryvit EIF system being attached.

If you should have any questions or need additional information, please do not hesitate to contact me.

Sincerely,

Roland Serino P.E.
System Engineering Manager

Re: Use of Demand Fasteners in StoTherm[®] RainScreen System

This is to confirm that the Demand PB and PBH washers with appropriate fasteners are acceptable for use in the StoTherm RainScreen System. Verification of compliance with the code and resistance to design wind pressures is the responsibility of the design professional and should be conducted on a job-by-job basis. The effects of thermal bridging should also be taken into consideration when using mechanical fasteners to attach insulation in exterior insulation and finish systems.

Sincerely,

Tom Remmele

Subject: Fastener Approval

Dear Sir:

We have reviewed the technical literature forwarded to us by your agent.

Please be advised that we approved Demand PB and PBH washers for use with Total Wall Class PB and Class MD EIFS. Further, we approve DP 300 and DP 400 washers for use with Total Wall Class PM and Class PI EIFS.

The proper use of the approved Demand washers will not affect warranty eligibility of a Total Wall project. If I can be of further assistance, please don't hesitate to call.

Sincerely,

Dennis Rose
